A PROPHET IN OUR OWN TIME

DR. JOHN COLEMAN

**Did you know? Public Law 87-297 calls for complete disarmament so the UN can "maintain internal peace".
51 million American acres are now UN designated! Military capacity of US is 65% and UN is 800% of our 1991 levels. The UN Children's Rights takes responsibility away from parents and gives it to the state. No mention of God in the UN Charter. AIDS was UN-induced for population control (House Bill 15090.) HB 666 crushes our 4th Amendment Rights. UN command of US troops (PDD 25).**

**Several days ago, I was looking for a radio show to listen to on the internet while I was
doing some other writing for a web page, and came across a show by Dr. John Coleman
on the Sightings.com website.**

**He so much echoed a lot of the information I had been gleaning over the years about the
men behind the scenes of the political and social actions I've seen take place. I've quoted
a few statements from the radio show below to show how much he cares about the
Constitution of the United States of America.**

**I had conversations as long as 30 years ago about some of these topics, but as families
go, I was put down and shut up rather than listened to and learned not to bring up certain**

unpleasant topics that people don't want to hear about because they are too busy with mundane life. And as things go, as soon as people hear the word 'conspiracy' they think you are a loony.

I'm aware that people need to work, take care of babies, keep the roof over their heads, have a balanced life with playtime, exercise, mow the lawn, etc. However, when one doesn't take the time to look at the news behind the news and the reasons why events happen as they do, one cannot be certain from one day to the next what is going to occur. One can't be certain either that they are making the proper decisions for their life if they don't know what's really going on.

Dr. John Coleman who is a Constitutional scholar, fits that bill perfectly. He has spent many, many years studying the topics he speaks about.

He has written a book titled "The Committee of 300", along with others, lectured on South Africa and the Boer War, and the butchery done on those people by England. He has alerted the world through his magazine 'World in Review Magazine' with prophecies he makes about the social issues of the world. Since he began his career in 1972, he has made 650 predictions and of those 97% came true. The other 3% were slightly inaccurate ... not wrong ... just slightly inaccurate. That rate of prophecy is better than any psychic I've ever heard of. Dr. Coleman doesn't do channeling. He gathers his information the same way that you and I can, through study, learning who is who and what they are doing and what they have done historically. During his career he has served in 15 different countries, so he is not just blowing smoke.

The March/April 2001, issue of ' World in Review Magazine" is headlined about Cecil John Rhodes. - The world united under British domination.

The British may not have won their war with us when we originally fought for our

independence in the American colonies, with their pretty 'redcoats' and tight white pants and shiny black boots on our shores, but they have not given up. Anybody notice how the ex-Princess Fergie started out telling us how to lose weight and now she is advising us on what to buy in the stock-market? Wait until you hear what Dr. Coleman has to say about the way Britain is still waging the war on the U.S.

It was rumoured that Princess Diana was to marry one of our political figures a few years back. That would have tied Great Britain to America in more than one way. Did you know that the Queen of England owns land in Colorado? The British still run Canada. How much of a stretch would it be to move the border a little further south?

And where was the first place the President George W. Bush went after he took office? To Mexico to confer with President Vincente Foxx to open up dialogues of trade and immigration to the United States. For those of you who aren't aware, there are now more Mexican people in California than there are white people ... not all of whom are citizens. Spanish is always used in any legal instructions to patrons of offices and stores, and on the telephone. Some schools do not even teach classes in English. It is a similar situation and sometimes worse in all the southern states along the Mexican/US border, particularly in Texas. Notice how well President George W. Bush speaks Spanish.

Woodrow Wilson was inducted into a secret British government group during his Presidency and was instructed to tear down the trade barriers between countries to make the United States part of the One World Order, which is totally against the betterment of the people of the United States. Many of our industries were destroyed by the policies of Woodrow Wilson. Nafta and Gatt follow those original policies. Note that President Clinton had been heavily involved in the World Trade Organization and trying to push it on the people of The United States. Do not be fooled into thinking

this is good for business, such as Woodrow Wilson tried to do to this country. Wilson stated to a joint meeting of Congress that trade with other countries was 'good' for competition.

I read that as ... cheaper goods, cheaper import taxes ... less business for American companies. Remember the slogan ... "Buy American!"

Try to buy a car that is made all in America. Or an electronic gadget. Nintendo is based in Kyoto, Japan. 40% of American homes have Nintendo in them. I had two of them myself. My grandchildren knew how to play when they were three years old and did nothing else. Their parents said they would cry if they didn't let them play. Oh really? They also make Pokemon cards. Most of the other homes with children in them probably have the Sony Play Station. And where is Sony located? Japan. Toyota? Japan. Toyota is now the 4th leading manufacturer of automobiles in the U.S. Yes! They do have factories here. Who do they buy these North American Licenses from? Who really benefits?. Where is Honda? Japan Mitsubishi? Japan.

I don't mean to besmirch any of the products. I've owned them all myself at one time or another. I really liked them when I had them. I'm just pointing out a few facts here.

Here's another fact. I wanted to learn to do quilting last year. I got catalogues and magazines to buy patterns, fabric, thread, needles, etc. The quilt I wanted to make would cost in cash lay-out about $350, not to mention the time involved to do the sewing. Then a product catalogue came in the mail ... similar to ones that get stuffed in your mailbox every other day. The same quilt I was going to make for over $350 + my time cost only $49 in the catalogue. Guess where it was made. China. Those poor little ladies need the work desparately and probably get paid 2 cents an hour in American money

exchange.

Are you getting the picture? Why would I spend $350 to make a quilt by hand when I can buy the same thing from China for $49? See where this is leading?

But, back to Dr. Coleman. This is who teaches us what is really going on behind the scenes that lets me buy a Chinese-made quilt for $49. I shouldn't complain right? Just wait until 'your' household income is what the Chinese take home. Get the picture now?

Dr. John Coleman neither promotes the Democrats or the Republicans, or any other party, but the Constitution.

As politics go, it makes no difference whether we have Democrats or Republicans in office. They are all the same, either to the left or right of the center of policy and each side tries to promote themselves as close to center as possible to get into office.

Dr. Coleman stated on the radio show, "I've often said that the most decent people in the world are the average American and British citizen. You can't find kinder, nicer, more decent, more wonderful people in the world ... and yet they've been connived, lied, cheated to and betrayed in the most disgusting and horrible manner, and it's going on in an increasing tempo today, and it doesn't make a scrap of difference who is in the Whitehouse or who 'will' be in the Whitehouse."

"They should have their eyes fixed on the treason that's going on inside our borders by the United Nations, immigration, gun control, the President assuming the powers of the Commander in Chief without the delegated powers of the Congress conferring the title upon him."

"We are a great deal worse off today than we were in 1921, when the doors of immigration were opened to the anarchists and those imported into this country from Eastern Europe and they came with the concerted intention of destroying the United States Constitution and they very, very nearly succeeded in 1921."

"Instead of the United States Congress and the House Republicans and Senate majority worrying about tax-cuts or diversions, they should be thinking about kicking the U.N. out of the United States."

In the last 10 years, our entire Constitution was called into question and stomped on and kicked, particularly by President Clinton, and anyone who paid attention to the last election between Gore and Bush, knows that the election in Florida should never have been decided by the Supreme Court.

BOOK REVIEWS AND LINKS

A Review of the book:

CONSPIRATORS' HIERARCHY: THE COMMITTEE OF 300 by Dr. John Coleman
ISBN: 0-922356-57-2
ISBN: 0963401947 (1997)

The author, a former intelligence agent of British M16, rips the lid off the conspiratorial group that knows no national boundaries, is above the law of all countries and controls every aspect of politics, commerce, religion, industry, banking, insurance, mining, and even the drug trade. Learn how this small elite group, which is answerable to no one except its own members, has pulled the strings on all major world events and why, until now, few people have been aware of its existence, let alone power, in manipulating the events of the entire world. All these members are revealed, as well as all the corporations, government agencies and various movements that "they" have developed and control to further their own aims for world domination.

Can you imagine an all powerful group that no knows national boundaries, that has set itself above the laws of all countries, one that controls every aspect of politics, religion, commerce and industry, banking, insurance, mining, THE DRUG TRADE, the petroleum industry, a group ANSWERABLE TO NONE BUT IT'S MEMBERS?

To the vast majority of us, such a group would appear to be beyond the realms of possibilities and capabilities of any given organization. If that is what you believe, then you are in the majority. The concept of a secret, elite group exercising control of every aspect of our lives is beyond our comprehension. Americans are prone to say, "it can't happen here, our Constitution forbids it."

That there is such a body called " THE COMMITTEE OF 300 is graphically told in this book. When most people attempt to address our national problems, they speak or write about "THEY." This book tells precisely who "THEY" are, and what "They" have planned for our future. It tells how "THEY" have been at war with the American nation for 47 years, a war that we, the people, are losing. It tells what methods "They" use and exactly how "They" have us all brainwashed.

If you are PUZZLED AND PERPLEXED as to why things are occurring that we as a

nation don't like, yet seen powerless to prevent, why it is that the United State always seems to back the wrong house, WHY OUR FORMER SOCIAL AND MORAL VALUES HAVE BEEN TURNED ASIDE AND SEEMINGLY BURIED; IF YOU ARE CONFUSED BY THE MANY CONSPIRACY THEORIES, then the COMMITTEE OF 300 will clearly establish that these condition have been deliberately created to bring us as a nation to our knees.

Once you have read the appalling truths contained in this book, understanding the past and present political, economic, social and religious events, will no longer be a problem. This powerful account of the forces ranged against the people of the United States, and indeed, the free world, can longer be ignored.

On page 139, John Coleman makes the following statement: "America is run not by 60 families but by 300 families and England is run by 100 families, and as we shall see these families are intertwined through marriage, companies, banks, not to mention ties to the Black Nobility, Freemasonry, the Order of St. John of Jerusalem and so on. These are the people who through their surrogates find ways to protect huge shipments of heroin from Hong Kong, Turkey, Iran, Pakistan, and to ensure that they will reach the market places in the U.S. and Western Europe with the minimum cost of doing business."

More description:

Formerly titled "Socialism: The Road To Slavery". How the Socialists in Washington are more feared than the Communists in Moscow. Why some Presidents adopted their program.

"THE ENEMY IN WASHINGTON is more to be feared than the enemy in Moscow" Communism did not destroy tariff protection created by George Washington. Communism did not force the United Stales to adopt graduated income tax. Communism did not create the Federal Reserve Board. Communism did not get the United States into WW1 or WWII. Communism did not force the United Nations on America. Communism did not take away the Panama Canal from the American

people. Communism did not create the Global 2000 report mass genocide plan. It is SOCIALISM that has brought forth these evils upon the United States.

Communism did not give: the world AIDS! Communism did not give the Americans disastrous levels of unemployment. Communism did not mount unrelenting attacks on the Constitution of the United States. Communism did not force America to adopt "foreign aid" that cursed tax on the American people! which is involuntary servitude.

Communism did not force the end to school prayers. Communism did not promote the falsehood of "separation of church and state." Communism did not give America a Supreme Court packed with justices bound and determined to undermine the Constitution of the United States. Communism did not send our soldiers to fight illegal wars to protect the interests of the British crown.

While our attention was focused on the evils of Communism in Moscow, the! SOCIALISTS in Washington were busy stealing America!! ONE WORLD ORDER: SOCIALIST DICTATORSHIP tells how this was, and is being accomplished.
